

Balmoral Show 2019

Wi-Fi & Wired Internet Access Service

Showgrounds/outdoor trade stands only.

For stands within the Eikon Shopping Village use other order form on website.

Hello, we are Atlas Communications and we can provide Internet access for exhibitors at the Balmoral Show .

If you need a connection to the Internet for your stand it's as simple as 1,2,3,4.

1. Pick the service you need for your stand, a wired or Wi-Fi Internet connection below.
2. Fill in the below form with your details and return it to sales@atlas-comms.com
3. Pay by either direct payment into our account or by credit card. Let us know when you have made the payment please so we can match your payment to your order.
4. We will email your code for access (if Wi-Fi connection has been chosen) a few days before the event.

Some things to note:

- Wired Internet connections must be booked and paid for **at least 10 working days before the event starts** to ensure we can have your connection ready.
- The service is for general Internet use. If you have a particular need for dedicated high capacity connections, please call us.
- Don't share your Wi-Fi Access Code or connection with others.
- We are unable to take care of your device that you access the Internet with so please make sure that it has any necessary wired and wireless capabilities on-board.
- One wireless connection will allow you to connect 1 device to the Wi-Fi. If you wish to connect more than 1, you will need to buy an additional connection.
- If you require multiple wired connections, pricing is per cabled connection so if you have 2 computers you need to connect by wire, please note the number of cabled connections.
- Please contact us for Internet connections, both wired and Wi-Fi, not the event organiser.

Have any queries? Let us know the event you are exhibiting at when you call.

Order Form
