### Phase 3. CONFORMATION & TYPE.

Horses must be presented on the triangle for their conformation and movement assessment. It is desirable that the presentation of animals at the triangle is properly rehearsed as follows.

- \*The horse will be presented before the judges at A where they will be assessed for conformation and movement.
- \*Horses should stand square with all four limbs bearing weight.
- \*Movement will be assessed on the triangle. The exhibitor will be asked to walk and trot their animal around the triangle approx (25m x 40m x 25m) in a clockwise direction, one round in walk and one round in trot.
- \*The triangle format allows the judges ( who will be positioned at A) to assess natural paces from behind, side and in front allowing them to easily assess freedom of shoulder, use of back, engagement of the hock, tracking up and straightness in both paces.

### Phase 4. SUITABILITY AND POTENTIAL.

The judges acting independently will assess each horses potential, based on the following criteria:

- \*Fluency & Balance
- \*Horse's Attitude
- \*Suitability of type for purpose
- \*Gallop - to be shown immediately after last fence is jumped
- \*Overall impression

These scores will be included in Phase 1, 2, and 3.

The Grand Total will be the horse's final score and will determine its final placing.

In the event of equality of marks, the jumping mark will take precedence.

Should this still produce an equality of marks, the highest mark attained in the final section will be the deciding factor.

#### Eligibility:

Restricted to 'Irish Bred' horses. Only animals with named passports identifying sire, dam, dam sire, microchip and breeder may compete. Passports will be inspected before Phase 1.

Horses must exceed 148cms without shoes.
