

The Show's process regarding carers/PA admissions is in line with that used by other large scale events and/or venues in the region and mainland UK.

The process aims to be as inclusive as possible, the Society is very aware that not all disabilities are visible and seeks to be as equitable as possible.

The benefits of this process include:

- Approved carers will receive a complimentary pass for use when accompanying a disabled visitor.
- This process will allow visitors to avoid having to queue at cash admission points.
- Disabled visitors and their carers can proceed directly to the main entrance and fast track into the Show.
- Disabled visitor can purchase tickets online in advance and avail of discounted offers not available at the gate.
- Disabled visitor can utilise offers from the Show partners including UFU, Translink.

The Society has its GDPR policies available on its website.

All copies of documentation will be destroyed/deleted once the process is complete.
